protect the family's safety

Famous brand motor
strong and durabel

Constant temperature technology
avoid the hot and cold bath

CORE TECHNOLOGY

SPA massage system

The natural and warm water hugs your body completely and the mind can obtain calmness again; carefully designed nozzle position can give you multiple massage experience, aiming at the easy fatigue position of humanbody to let you relax muscles and relieve pains.

Multiple massage system

Torrent surfing
massage

The effervescent bubbles like champagne slowly rises fromthe water, making skin be absorbed in the favor of the waterflow. The changing water lights can ensure peaceful feelings of the heart and nature – being attracted by the water.

Aerobic effervescent
massage

Water-bubble mixed massage system can have hydraulic massage nozzle and air bubbles nozzle work together. The massage can penetrate from surface into deep skin tissue to activate skin cells and achieve the goal of the whole body massage and relax, and make physical contact more comfortable, which is easy to clean.

Adjustable surfing
nozzle

The physical therapyon different parts of the body comesfrom water flow massage from different positions, matched with different designs of nozzles, So as to relax muscles; theall-around and combined massage relax can provide wholebody with enjoyment of physical therapy.

LED visual physical therapy

The colored lights on the surface of bathtub and at the bottom of the pool can change a variety of colors circularly, to relax the body and mind inside the colored lights and fully enjoy the bath fun the light and water bring for you.

Phototherapy is a kind of physical treatment, to treat various diseases through adjusting the immune system by hypothalamus under the lights of different colors and different wavelengths by putting the fluorescent lamp into the phototherapy box.

CORE TECHNOLOGY

LED annular water outlet patent design

LED annular water outlet design; integrated constant temperature water circulation system has perfect combination of appearance and function.

Inductive button

Inductive button adopts the new type capacitive screen to have sensitive response.

Delicate hardware accessories

The whole piece of stainless steel materials is adopted with CNC milling cutting, which is concise and generous, to become the punchline of the overall design.

Clean water drainage design

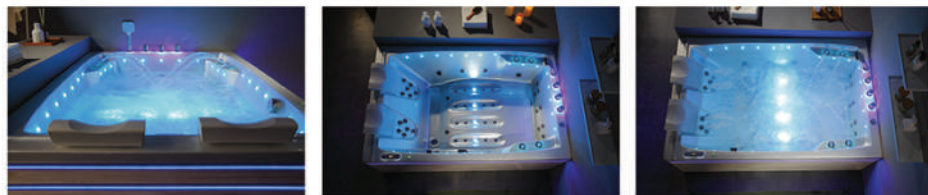

Innovative drainage structure has more thorough flushing and more convenient cleaning; 360 degrees of cleaning has no dead angle, which is clean, easy and visible.

FREES- TANDING

Give fun to everyone and life is supreme
Present the inspiration of life
With the brushwork of the art
Create sanitary space with
excellent quality and unique design
To meet the demands of
different characters
Let your preference become
the household subject
Bring infinite interest to the
household life
